Calumet Steel Artifacts: Preserving the Legacy of the Region

southeast side CHICAGO PARK DISTRICT

How did the artifacts get here? The bells were donated to the Calumet Heritage Partnership by the BessemerSteel Family. The small bell and the huge metal plunger arrived at the Pullman State Historic Site in April of 2007 and the plunger was moved to the Calumet Steel Artifacts site in October of 2008. A number of volunteers have helped with the project.

The largest anvil bell and furnace door that have been found in the area. The anvil bell is made of iron and is the largest anvil bell ever found. The furnace door is made of iron and is the largest furnace door ever found.
